Subject: Construction Activities on LPT's 2301 Renaissance Boulevard Property

This project status report covers on-site work completed on the subject property on 9/5 and 9/6/01 and planned for completion on 9/7/01.

Work Completed on 9/5/01

The truck turnaround and decontamination pads for remediation of the Cinder/Slag Fill Area are installed yesterday. The construction entrance was also upgraded. No work was completed at the site yesterday.

Work Completed on 9/6/01

Portions of the previously installed stormsewer lines were uncovered in preparation for their possible relocation. No work was completed at the site today.

Anticipated Work on 9/7/01

The area located in the western portion of the site may be surveyed tomorrow in preparation for installing a wetland preservation area on this portion of the site.

Potential Issues

No potential issues of concern were identified at the site yesterday or today.

Please feel free to give me a call if you have any questions regarding the contents of this project status report or if you require additional information.
